

ce103\_hw4\_library\_cmd.Unit  
Test.testSetAndGetId

```
graph LR; A[ce103_hw4_library_cmd.UnitTest.testSetAndGetId] --> B[ce103_hw4_library_lib.CustomerFeature.getId]; A --> C[ce103_hw4_library_lib.CustomerFeature.setId];
```

The diagram illustrates a unit test, `ce103_hw4_library_cmd.UnitTest.testSetAndGetId`, which is shown in a grey box on the left. Two blue arrows originate from the right side of this box and point to two separate white boxes on the right. The top white box contains the text `ce103_hw4_library_lib.CustomerFeature.getId`, and the bottom white box contains `ce103_hw4_library_lib.CustomerFeature.setId`. This visualizes the test's interaction with the `CustomerFeature` class's `getId` and `setId` methods.
